## DIVE NUSA PENIDA :

Nusa Penida is renowned for its rich and diverse underwater life, offering incredible coral reefs. Divers can encounter large marine species as well as the vibrant macro life that thrive in these waters.

Nusa Penida is also home to the magnificent Manta Ray and the Oceanic Sunfish (Mola - Mola), making it the only region in Bali where you can regularly see the two year-round, especially between July and October. Guided dives along the spectacular coasts of Nusa Penida feature some of the top dive sites in the region.

- **CRYSTAL REEF** : Divers can observe the fascinating Mola-Mola while enjoying a beautiful reef and wall.
- **MALIBU POINT** : Enjoy drift dives with schooling fusiliers, trevallies, frogfish, and Bali's largest variety of sharks.
- **VERTIGO POINT** : Ideal for spotting pelagics.
- **MANTA POINT** : One of the most popular sites, providing an opportunity to encounter incredible Manta Rays with wingspans up to 6 meters.
